To whom it may concern,

Kwelanga has been used extensively by Engen this year and we've not been disappointed. They've exceeded our expectations and delivered beyond their promise. Engen's delegates have taken such fundamental learning experiences and an understanding of new concepts and applying it into their jobs.

Kwelanga is one of my preferred service providers as they respond to my queries on time and my accounts are always up to date. They offer competitive prices for quality training and my delegates are happy.

I'm happy to recommend their services

Kind regards

Thorisha Pillay

Learning and development co-ordinator
