To whom this may concern

RE: REFERENCE LETTER

The McCarthy VW Audi Franchise has been working with the Kwalenga Group for many successful years. I has been a privilege and honour to work with the Kwalenga Team for the last year and a half that I have been with the McCarthy Group.

The course outline and content provided by Kwalenga Training is that of an extremely high quality. The content presented is always updated information and in line with current affairs. The facilitators' are experienced, qualified trainers who incorporate their personal experiences into the training sessions – giving you a better understanding of the examples used to explain content.

The bookings team and management of Kwalenga are exceptional to work with as they understand the hardships experienced in a busy organisation and are always willing to assist. I do appreciate the calls and feedback sessions from management to ensure the services rendered are always of an excellent quality.

Please feel free to contact me should you require additional information.

Kind Regards
Reesha Naidoo
Franchise HR Manager
