

REFERENCE ON KWELENGA TRAINING

Kwelenga Training has been a training service provider to Smollan for a few years now. It has been a mutually beneficial working relationship.

Last year as part of a Development Initiative for the Business Unit, Unilever Field Sales, I requested that Kwelenga provide us with targeted, facilitated training on some of our key themes in this newly designed Development Programme.

Kwelenga has been instrumental in making this piloted Development Programme successful amongst our Junior Management. The open and approachable manner in which the facilitators guided the training allowed the team to benefit from the knowledge imparted and apply the principles within the workplace with effectiveness and confidence.

The training has been practicable and the simulation of exercises spoke to the current environment we currently operate in. We will continue to use Kwelenga for further development initiatives and we only have praise for their professionalism service delivery. Their service offering exceeded our required expectations.

I do not hesitate to recommend Kwelenga Training to any other business.

Yours sincerely,

Katia Graca
Business Unit HR Manager
Unilever Field Sales (a division of Smollan)
