Dear Shane

Kwelanga Training provided us with in house "Supervisory Skills for Team Leaders" training. We were pleased with the service provided by the Kwelanga team from our initial engagement with yourself, to the course administrators and facilitator. The facilitator engaged well with our delegates and received excellent feedback.

We have been impressed with the professional service that you have offered us and your willingness and ability to accommodate the requirements of our business.

Kwelanga has been willing to do the extra that is required to ensure that training is rolled out successfully from the initial co-ordination to the final feedback which was well presented.

We have found Kwelanga Training to be a professional and dedicated provider of training to our business.

Kind regards

Lisa Stassen
Training Specialist
