INTRODUCTION

You only have one chance to make an impression. It doesn't matter if your organisation is large or small, for a client your company comes down to the professionalism received and image at the front desk.

The Corporate Receptionist workshop develops front line staff to become highly professional and efficient when dealing both face to face and telephonically with clients. They will understand the importance of communicating in a corporate and courteous manner to both internal and external customers.

This learning programme also covers key aspects of proper conduct and administrative practices in the reception area. It will equip delegates with practical skills to monitor and control the reception area efficiently. Learners will be well positioned to extend their learning and practice into other areas in the business environment, striving towards professional standards and practice at higher levels.

VIRTUAL INSTRUCTOR-LED TRAINING

Participants “attend” virtual classroom training, through the Zoom on-line platform, without having to travel to and from the classroom each day. Courses are divided into several shorter sessions to minimise operational disruptions and improve knowledge retention.

Training is facilitated in real-time, providing the benefit of hands on learning. Delegates interact with the facilitator and each other, as with any other classroom experience. This allows for a cooperative learning environment, where participants can share knowledge, engage in positive discussions and work together.

Benefits of Virtual Instructor-Led Training

- ✚ Virtual training provides flexibility to both the client/delegate and facilitator.
- ✚ Delegates are active participants rather than relying entirely on the instructor.
- ✚ Virtual training is conducive to a more fluid exchange of ideas, focused real-life scenarios and an intensified level of engagement.
- ✚ Information is shared through video, documents, and written notes with learners in real-time.
- ✚ Delegates who have internet connection can learn at anytime and anywhere through virtual learning or through recorded videos.
- ✚ Delegates can participate in discussions and ask questions at any time.
- ✚ Breakout rooms allow delegates to work in groups and complete activities in teams which allows for a rich interactive experience.
- ✚ Access to expert facilitators who may otherwise be unable to visit workplaces due to unforeseen circumstances.
- ✚ Use of slides and video clips enhances virtual learning.
